

# Digital Asset Valuation Fees

APPRAISAL  
BUREAU

**Appraisal Bureau** offers valuations on **Digital Assets** for purposes of **insurance, equitable distribution, tax and estate planning, asset management, and charitable donation**. Appraisal Bureau's technology-focused approach is used by both private and institutional clients. Our proprietary NFT Valuation Methodology is approved by major international insurance markets.

Appraisal Bureau is a third-party neutral valuation and data firm. In order to maintain our fair and unbiased reporting, we do not offer sales or collection advisory services.

Digital Assets valuations are adjusted daily based on variables including underlying blockchain volatility, change in floor price (if applicable) and comparable sales. Reports are submitted in spreadsheet format. USPAP compliant reports are available for an additional fee. 6 month minimum commitment for subscription services.

Customer acknowledges that prices are subject to fluctuation. The fees set forth in this price list apply to the appraisal services rendered by Appraisal Bureau. Unless otherwise specified herein, Appraisal Bureau’s services for which the fees in this price list apply do not include meetings with persons other than you, your personnel or your agents or professional advisors; Appraisal Bureau’s deposition(s) or testimony before judicial, arbitration or administrative tribunals; or any preparation associated with such depositions or testimony. Any additional services performed by Appraisal Bureau not set forth in this price list will be performed on terms and conditions set forth in an amendment to this price list or in a separate written agreement. Customer acknowledges the inherent risks associated with using cryptographic and blockchain-based systems, and that Customer has a working knowledge of the usage and intricacies of digital assets such as bitcoin (BTC), ether (ETH), and other digital tokens such as those following the Ethereum Token Standard (ERC-20 or ERC-721). Customer further understands that the markets for these digital assets are highly volatile due to factors including (but not limited to) adoption, speculation, technology, security, and regulation. Customer acknowledges that the cost and speed of transacting with cryptographic and blockchain-based systems are variable and may increase at any time. Customer further acknowledges the risk that Customer’s digital assets may lose some or all of their value while the assets are being appraised. Customer further acknowledges that Appraisal Bureau is not responsible for any of these variables or risks and cannot be held liable for any resulting losses that Customer experiences.
